

Web & Internet

Class V
lab 11

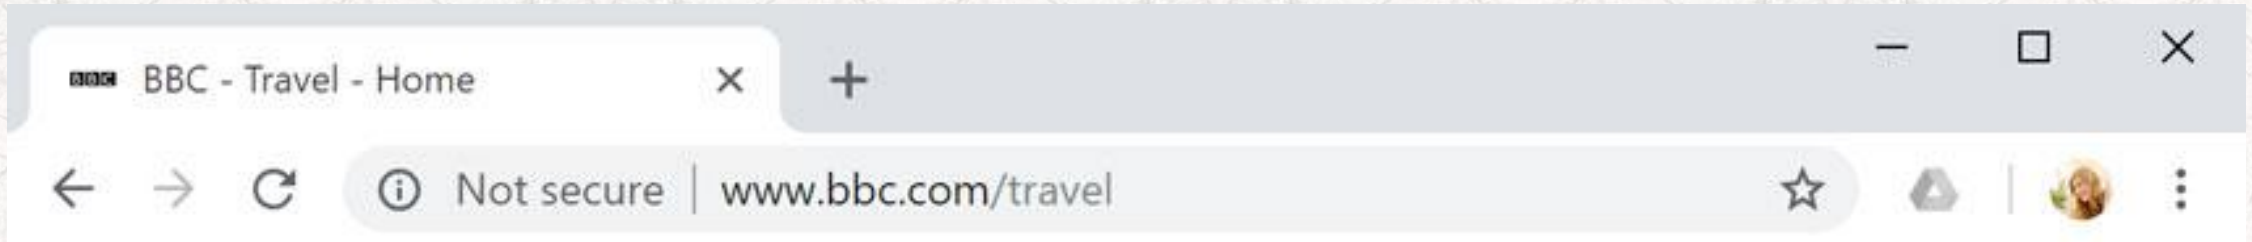

Web Browser

A web browser is a type of software that allows you to find and view websites on the Internet

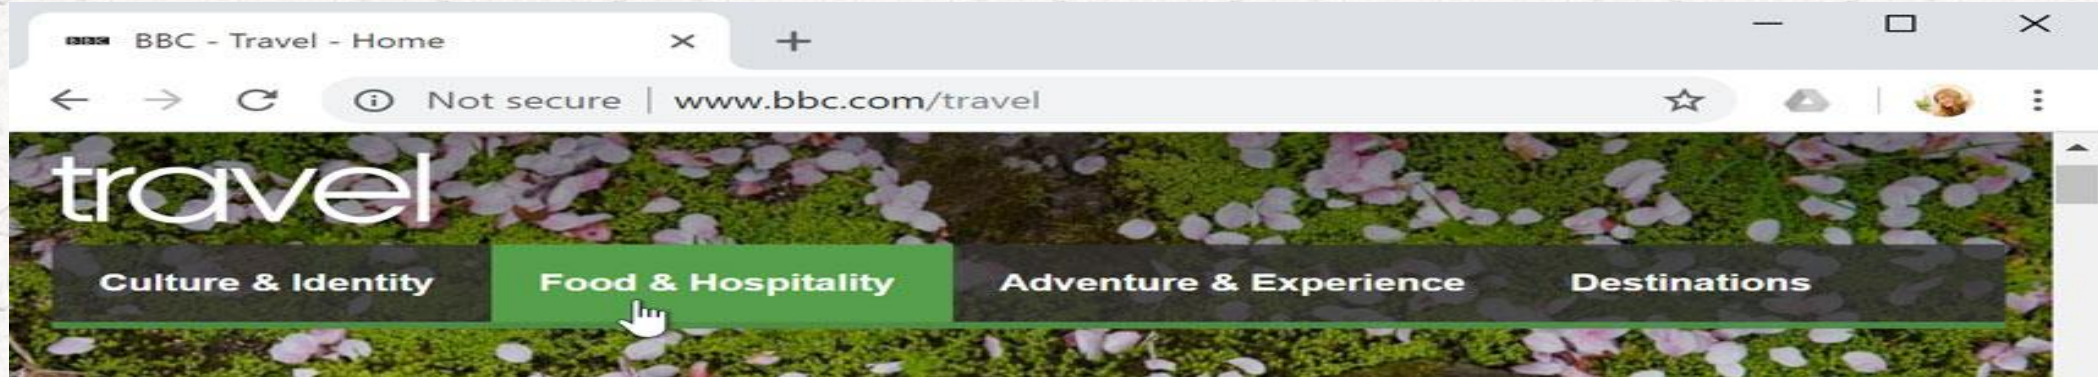

Address Bar

Each website has a unique address, called a URL . In browsers address bar you have to put the URL and hit to visit that website

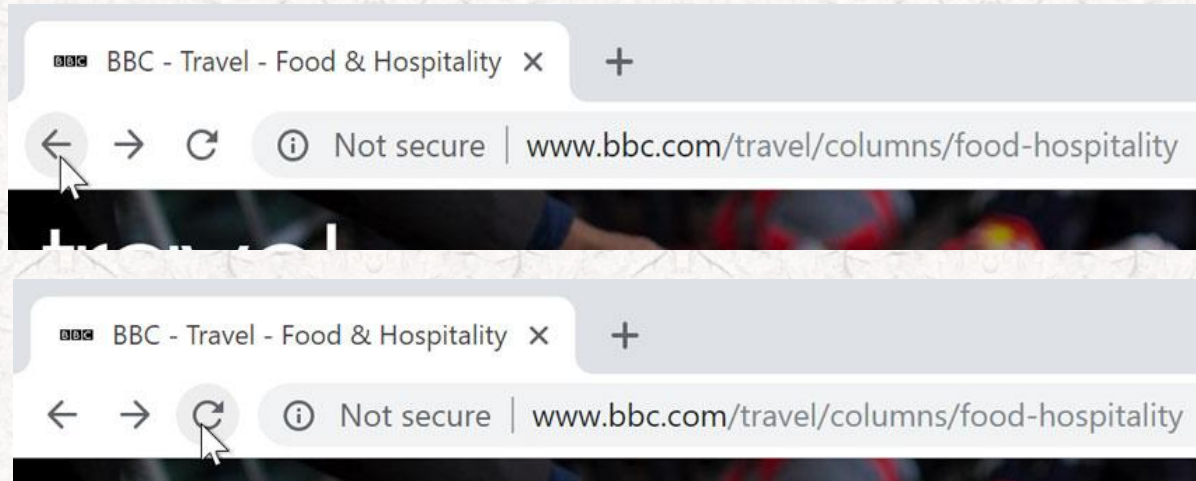

Links

Links are used to navigate the Web. When you click a link, it will usually take you to a different web page

Navigation buttons

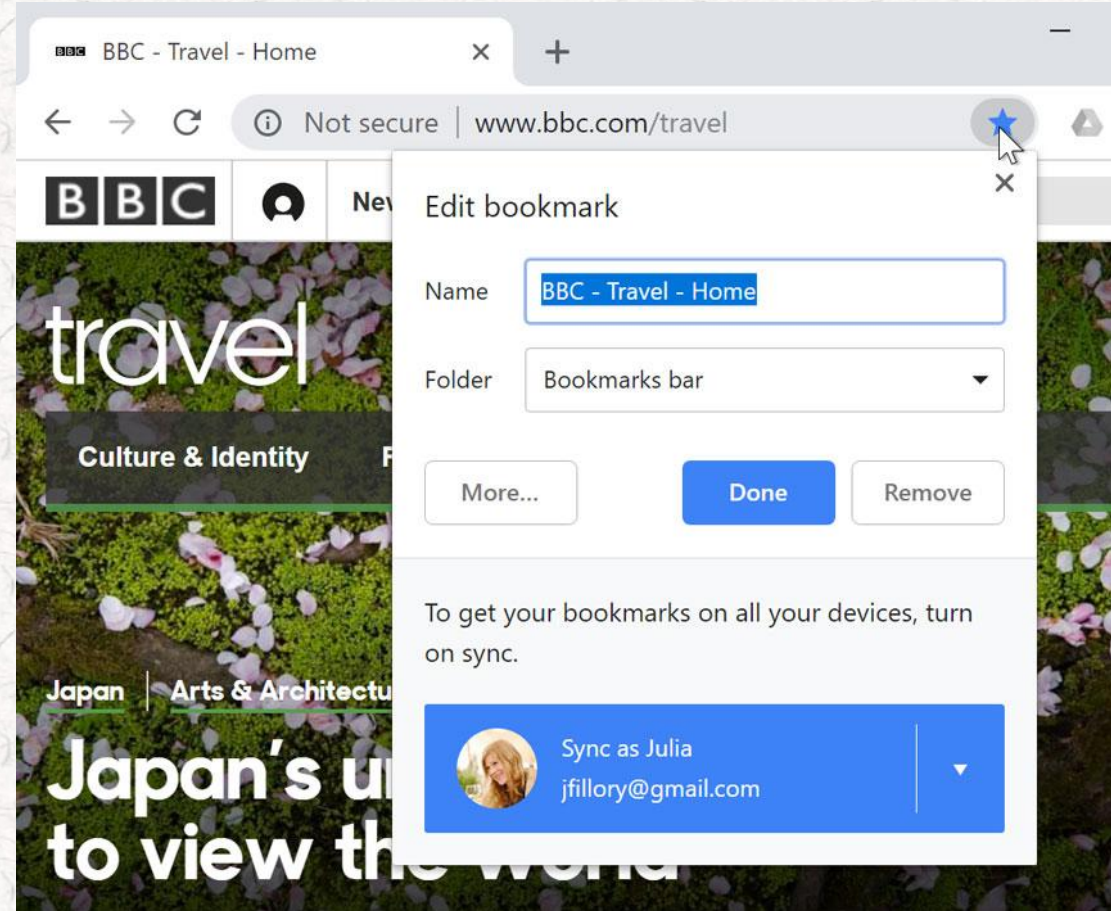

Navigation button allows you to navigate to forward, backward or reload current page

Bookmark

If you find a website you want to view later you just need to bookmark it

thank
you
