

LAB TUTORIAL CLASS 7

Lab 1: Basic Programming

1. Question-Answer: Fill the box

a.

```
var price1 = 300;  
var price2 = 430;
```

```
var total = price1 + price2;
```

total =

b.

```
var price1 = 45.50;  
var price1 = 78.40;  
var price2 = 117.30;
```

```
var total = price1 + price2;
```

total =

c.

```
var salary = 42000;  
var cost = 30500;
```

```
var total = salary - cost;
```

total =

d.

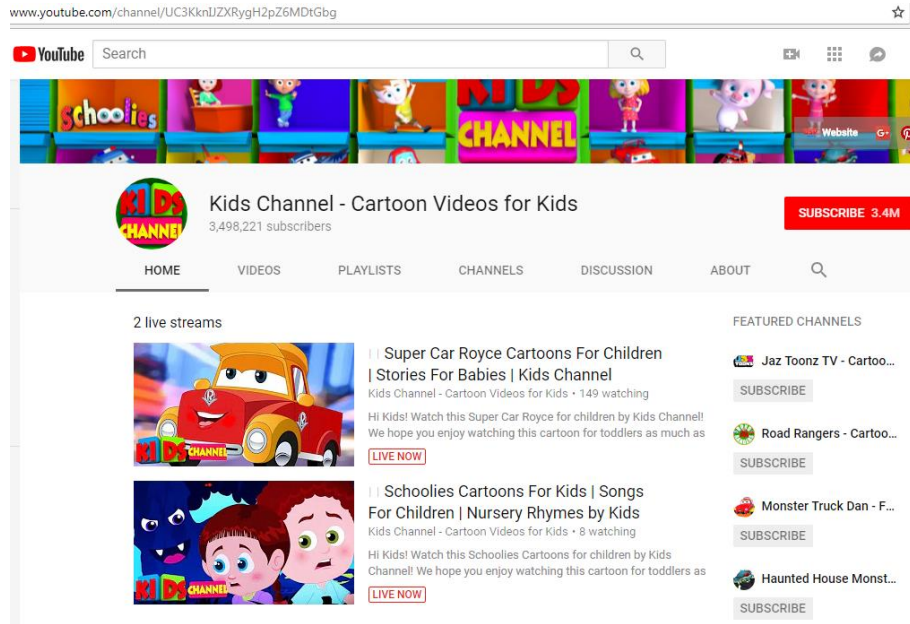

```
var x = 900;  
var y = 430;
```

```
var total = x + 100;
```

total =

2. Question-Answer: Fill the box

a. Example of

b. Example of
